DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in
5 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is
eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e)
has been timely paid, the finality of the previous Office action has been withdrawn pursuant to
37 CFR 1.114. Applicant's submission filed on July 21, 2004 has been entered.

Response

2. Receipt is acknowledged of the response filed on July 21, 2004. Currently, claims 1-4
remain for examination.

Claim Rejections - 35 USC § 102

- 15 3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the
basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- 20 (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed
in the United States before the invention by the applicant for patent or (2) a patent granted on an application for
patent by another filed in the United States before the invention by the applicant for patent, except that an
international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this
subsection of an application filed in the United States only if the international application designated the United
States and was published under Article 21(2) of such treaty in the English language.

- 25 4. Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Lee et al. (US
6,323,064, hereinafter “Lee”).

Art Unit: 2876

Lee discloses a mini card and the method for manufacturing the mini card (see abstract; col. 1, lines 11+; col. 1, lines 30+) wherein the substrate 60 form a plurality of unit substrate 40 (col. 4, lines 35+). As shown in figures 2 and 7, each card is comprised of a base layer 50, an IC chip 54, and a covering substrate 40 (col. 3, lines 31+). Once the steps mounting chips and covering resin is hardened, the multi-substrate 60 is cut into multiple memory cards (col. 5, lines 56+).

Response to Remarks

5. Applicant's remarks filed on July 21, 2004 is carefully considered. Examiner notes that
10 Applicant submitted a translation of certified copy Japanese Application. Foreign priority papers need not to be translated to claim a foreign priority. However, in view of the Oath claiming foreign priority, previous rejection made relying on the Wada patent (US b,602,734 B1) is withdrawn.

Conclusion

- I. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Haghiri-Teharani discloses an IC card comprising a plurality of mini-cards. Applicant is respectfully suggested to carefully review these references.
